### Working in Partnership

We will inform parents/carers of any concerns we have about their child (providing it does not compromise child safety), and will help support them as necessary.

# Recruitment of Staff

We are committed to recruiting staff and volunteers who are suitable to work with children. We adhere to the North Lincolnshire Council safe recruitment procedures.

### Early Help – What is it?

Early Help means providing support as soon as a problem emerges, at any point in a child's life, from the foundation years to the teenage years.

Early Help can prevent further problems arising by offering early help at the earliest point and at the lowest level of service required in order to improve outcomes for children.

We have an obligation to our families to identify those who have emerging problems and share this information with other professionals.

### The Early Help Process

- Identify children and families who would benefit from an early help.
- Undertake an assessment of the need for an early help.
- Provide targeted early help services to address the assessed needs of a child and their family which focuses on activity to improve the outcomes for the child.

### **Online Safety**

There are no opportunities for children to access online material without strict supervision of an adult.

# **Use of Mobile Phones and Cameras**

We take the necessary steps to ensure that children are protected from unauthorised use of mobile phones and cameras.

We ask that parents do not use their phones whilst on Little Imps grounds. Unless prior permission given at special events. We ensure that staff use their lockers to store mobile devices for the duration of their shift, and only use at break times away from the children.

Visitors to the setting are asked to store their mobile devices in the filing cabinet in the office.
